

Workshop Description

Delivering Impactful Virtual Experiences (DIVE)

Many agents, coaches and consultants are using webinars as a way to generate sales and clients. And, done correctly, webinars are a fantastic tool to answer prospect questions and help them solve a problem.

But, are you delivering just another webinar or are you creating a VIRTUAL EXPERIENCE? Learn how to connect with the people who need the solution you provide. Convert them from prospects into customers and clients by delivering impactful experiences that get noticed!

Not tech savvy? Not to worry. This program makes the tech simple and shows you ways to engage, connect and be memorable without tech overwhelm.

Participants in this session will learn:

- simple elements to connect with your online audience
- the mistake many online trainers/presenters make that overwhelms attendees
- how to get and KEEP your audience's attention right from the beginning

Session Length: 60-90 minutes
